ZENFIELD DINING ROOM TABLE

SKU: ZEN-479

Those drawn to the earthy character of a high-grain, textural finish with rich tone variation can appreciate the beauty and craftsmanship of the Zenfield trestle dining room table. The inspiration: industrial chic meets homey warmth. Amazing how the aged pewter-tone banding is perfectly flush with the tabletop for a smooth feel and seamless merge of rich wood and rustic metal. Talk about style and substance. Tabletop is a big, thick slab of indulgence, while the double pedestal canted base with stretcher is beautifully supportive.

Made of veneers and hardwood
Textured, wire-brushed finish
Pewter-tone metal banding runs width of table surface
Seats up to 6
